

Beaded Suncatcher

A suncatcher is a hanging decoration, usually displayed in windows, which is used to catch the sunlight and form rainbows or pretty reflections to appear in your room!

There is no right or wrong way to create a suncatcher! You can use a variety of beads, charms, prisms, and so forth to create the beautiful strands.

For the main fixture of the suncatcher, you can use a wooden flourish, a branch, a hoop, popsicle sticks, mason jar lid, and many more! Again, the possibilities are endless! Have fun creating a unique piece of art to hang in your home that will provide beautiful dancing lights and rainbows!
